| Highway | Pipe/Power Line | Stream/Shortline |
| Secondary Road | Ridge/Physical Feature | Intermittent Stream |
| Deep Trail/Wakeby/Ferry | Property/Fence Line | River / Lake |
| Rollroad | Nonvisible Boundary | Glacier |

Inset **Out Area**

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

¹ A "-" following a place name indicates that the place is coterminous with a MCD. A "+" indicates that the place is also a full MCD; the false MCD name is not shown.

² This map shows tribal census tract boundaries and numbers within the subject entity; nontribal census tract boundaries are shown outside of the subject entity but without numbers. A tribal census tract is a type of census tract defined within a federally recognized American Indian reservation or off-reservation trust land for the purpose of providing data based on an American Indian hierarchy rather than by state and county. Where reservations or off-reservation trust lands cross state or county boundaries, the same tribal census tract number may be assigned on both sides of the boundary, and, if so, constitutes a single tribal census tract entity.

³ A "+" following a block number indicates that the block number is repeated elsewhere in the block.
